

Master Fluid
SOLUTIONS®

*What's better than clean?
Master STAGES™ CLEAN!*

*There's a hard-working
Master STAGES product
just right for your operation.*

*Don't just get it clean,
get it Master STAGES™ CLEAN!*

There's a Master STAGES parts cleaner just right for your operation.

Master STAGES hard-working parts cleaners keep customers running at peak performance, environmentally compliant, and more profitable.

Master STAGES™ CLEAN 2029 "One Step" Parts Washing Fluid Corrosion Inhibitor

- > High detergent, low foam, highly concentrated, and cleaner/corrosion inhibitor
- > For spray washers and immersion tanks
- > Two to four weeks of indoor RP on steel and cast iron
- > Effective on steel, cast iron, powdered and yellow metals, and most aluminum
- > Mild pH, no silicates or high pH additives, for a safer work environment
- > Use at 3%–5% with 140°F–180°F (60°C–82°C) for best results/lowest foam

Master STAGES™ CLEAN 2430 Near-neutral Washing Compound

- > Highly concentrated, excellent detergency, and long life
- > For aluminum alloys, steel alloys, cast iron, copper, brass, bronze, and zinc
- > A week or more of indoor anti-corrosion for ferrous metals if not rinsed
- > Low foaming in high-pressure spray washers at normal temperatures
- > Use on ferrous, aluminum, and copper parts in a single washer system

Get it really clean with Master STAGES maintenance cleaners.

Master STAGES maintenance cleaners get the heavy grease, grime, and oily residue from your machines, work surfaces, and floors– without harmful, corrosive, chemical compounds.

Master STAGES™ Whamex™ Machine Tool Sump and System Cleaner

- > Dramatically extends coolant life, removes oily residues and scums
- > Cleans while production is up and running
- > Reduces full cleanout downtime
- > For quick, efficient interim cleaning

Master STAGES™ CLEAN F2™ Non-butyl Floor and Multi-purpose Cleaner

- > Super-concentrated, very economical
- > Use at these dilutions:
 - Power washers/steam cleaners 1%–3%
 - Floor scrubbers 1½%–3%
 - Mop buckets 5%–10%; immersion power washers 10%
 - Spray bottles 10–20%

Master STAGES™ Task2™ GRIME FIGHTER

- > For removal of heavy, oily, or greasy soil, use at full strength
- > Dilute 20:1 for cleaning glass and plastic surfaces
- > Safe on all metals
- > Pleasant fragrance
