

HY-SPEED MACHINING OF GRANTS PASS, OREGON

TRIM® MicroSol® 690XT Saves on Tooling and Run Times

TRIM® MicroSol® 690XT has produced astonishing results for Hy-Speed Machining

Making a big difference to the bottom line.

Hy-Speed Machining, an Oregon job shop whose majority of work is for the aerospace industry, runs aluminum along with lots of tough-to-machine Inconel® and other aerospace alloys. Having to stop their CNC machines to add tapping fluid to cut challenging metals was costing them a lot of money—both in production time and tapping fluid. With a successful trial, they changed the whole shop over to MicroSol 690XT with impressive results.

CNC programmer Mike Mills, Jr. has been amazed at the difference in production and huge cost savings since their switch to premium semisynthetic MicroSol 690XT.

Mills sites the new coolant's performance with a recent job cutting Inconel, "Since we switched to the MicroSol 690XT, we were able to increase our surface footage, our speed rates, our chip loads, and our tool life. We literally get up to 6 times the tool life that we were getting with the former coolant. On this one job we went from 12 minutes a part down to 4 ½ minutes—with a tenth of the coolant cost we had before.

"With this Inconel job," he continues, "we use a \$450 drill. Before we were going through four to five of them on the run of 150 parts. With the MicroSol 690XT we use ONE drill for the entire run and it's still good to run more parts! We definitely have cut our tool and coolant costs down, sped the run time up... we are looking at saving thousands of dollars on this job." And that is just one example of the dramatic results they see with MicroSol 690XT day in and day out.

"It has really changed our world here at Hy-Speed Machining, it has been a great success for us," adds Mike. "MicroSol 690XT has helped our bottom line tremendously; with the savings on coolant, on tooling costs, the time it took to switch out tools, and the faster run times, we'll see savings of hundreds of thousands a year. It's incredible."

See your profits soar with MicroSol 690XT.
