XYBEX® Li'l Sucker™

The compact **Li'l Sucker** design incorporates many of the design features of the **Yellow Bellied Sump Sucker™** (YBSS) in a smaller package perfect for small and medium companies with a smaller coolant sump. With suction speed of 230 LPM, the **Li'l Sucker** will suck in anything that will go into the 2" suction hose to clean virtually any machine tool sump quickly and thoroughly.

The sludge basket is fitted with a reusable polypropylene mesh filter sleeve nominally rated at 50 microns.

A disposable 20-micron filter bag is also available as an option.

Benefits

- > High-speed coolant/cleaners tank for sump cleaning
- > Anything can be sucked from coolant sump like sludge, chips, other waste.
- > Just plug in and clean
- > Easy change of filter liner
- > Easily movable across the shop

Features

- > Suction rate average of 230 LPM
- > Discharge rate average of 150 LPM
- > Use for coolants and cleaners
- > Fluid media doesn't touch the pump
- > Tank overflow protection
- > 50-micron polypropylene filter liner
- > Sludge holding capacity of 1.6 Cft.
- > Optional 20-micron single-use filter paper

Technical Data

Power supply: 220V 50Hz

Optional: 110V 60Hz

Power: 1.5KW

Optional Model Descriptions

Li'l Sucker™ 50B 50 gallons [200L]

Li'l Sucker™ 50S 50 gallons square tank [190L]

Li'l Sucker™ 80B 80 gallons [320L]

Li'l Sucker™ 50/50B Dual Tank of [200L]

Li'l Sucker™ 80/80B Dual Tank of [320L]

Configuration/All Models

- > Suction hose:
2" (50mm) ID and 10' (3m) length with pick up tool
- > Discharge hose:
1.5" (38mm) ID and 10" (3m) length
- > 50-micron polypropylene filter liner
